7. Leave your browser window open until the transfer finishes

Security

Filemail.com is an online service that specializes in securely transferring large files. Transferred files are temporarily stored on Filemail.com servers in St. Louis, MO and made available by download by members of our team at Corona Environmental Consulting and University of Colorado Boulder. Only members of this team receive the download link. If you are concerned about security, please contact us and we would be happy to provide more information or alternative transfer options.
